Pennsylvania's Healthcare Mosaic Conference: Advocacy and Equity in Action (2021)

PA Action Coalition events are also additional professional development opportunities for students. Our first cohort in 2020 student-mentees had the chance to attend the PA Healthcare Mosaic Conference: Advocacy and Equity in Action. This is a conference organized by our Nurse Diversity Council and gathers health and social service providers to share ideas surrounding diversity and open dialogue about health disparities.

One of our sessions included a Student Engagement Panel that included current nursing students and graduate nurses. They shared their insight on their experience in public health leadership, strategies on how current nursing students can engage in advocacy at their school and their communities, and how they could translate this work as they transition into their professional practices. Two Senior Nursing Students from Lincoln were panelists.

Training to Prep for Capitol Hill Day

In preparation for the National Black Nurses Day on Capitol Hill, the PA-ACCEL Program Support Team will host monthly meetings with Student-Mentees leading up to the event. During these meetings the PA-ACCEL Program Support Team will introduce *The Future of Nursing: Campaign for Action's* Health Equity Toolkit and review the policy agenda in advance with the students. This will provide a framework for how the students, mentors, and attendees of the National Black Nurses' Day can think about a specific policy action area that they feel is particularly important or especially resonates with them and follow the recommended guide for how to approach the underlying issue. We hope that this forum allows for rich dialogue and critical conversation going into the Capitol Hill Day where the students feel a connection to at least one of the priority areas and can learn more about how and why the specific policy agenda is advancing health equity in that area.
